Maenza Residence

Mandeville, Louisiana

Producer Member: Stone Legends/Stone Magic /CSCS
Dallas, Texas

Architect: **Dan Sater / Sater Group**

2015 Excellence Award Winners

What is the scope of the project?

Produced were the following Cast Stone elements - a variety of window surrounds and sills for the exterior, bracketed banding at the roofline, columns and balustrade along back patio, and the front entryway, including steps, balustrade, columns, first and second floor surrounds, and pediment. In addition, the columns, balustrade, and banding for the interior pool area are cast stone.

2015 Excellence Award Winners

What is the role of Cast Stone?

The Cast Stone is the accent material for the entire exterior of the home. The Cast Stone stands out from the colored stucco and surrounds each architectural feature of the façade.

2015 Excellence Award Winners

How was Cast Stone critical to the success of this project?

Cast Stone gives the project a look of grandness that the Mediterranean style for the home wouldn't including setting off each feature from the siding. Cast Stone adds weight to the façade and elegance to the pool and patio area.
